## CORNERS IN GRAINS AND FOODSTUFFS

### Soon Will Be Things of the Past in Chicago.

Chicago, Nov. 12.—Corners in grains and foodstuffs on the board of trade of Chicago will soon be things of the past.

The board of directors of the board of trade has officially declared against future corners in the wheat pit, the oats pit and the corn pit. It has gone on record against the big dealers in foodstuffs who run corners in grain and who, with everything in their own hands, run prices up to the highest notch with great profit to themselves and very often with ruin for the other party to the trade.

The board of directors has unanimously voted in favor of a change in the rules of the board of trade which will make corners and manipulations of the market an impossibility. It is now up to the membership of the board to say whether they approve of the action of the board of directors. The matter will be voted upon in ten days. The probabilities are that the board of directors will be sustained by a big vote, and that the death knell of spectacular corners will be sounded. The action of the board of directors in boldly declaring war upon the manipulators on the board is the most drastic ever taken in the history of the Chicago Board of Trade. Members of the board say it marks a new era in the biggest and the greatest grain market in the world.

### SCHOOLS OF AGRICULTURE

Have Increased in Number in the Past Few Years.

Washington, Nov. 12.—According to Dr. A. C. True, director of the government bureau of experiment stations, department of agriculture, secondary education in agriculture is growing so rapidly in the United States that it is quite impossible for the government to keep track of it, and he believes that this growth is to continue, until in the end the problems connected with this class of instruction are all solved and American boys and girls in the rural communities are enabled to secure the very best instruction along these lines that the world can give.

When Secretary Wilson entered the McKinley cabinet, now more than twelve years ago, there were but ten agricultural high schools in the country, and the teaching of agriculture in normal schools, or in public elementary schools, had just begun. Today, Dr. True says, there are 60 agricultural high schools in the country, or definitely secondary agricultural courses in colleges, 346 public high schools teaching agriculture, and 119 state or county normal schools, and 16 agricultural colleges training young men and women to teach agriculture. In addition, there are several private institutions giving secondary instruction in agriculture, sixteen institutions offering correspondence courses or reading courses, which are practically of secondary grade, making a grand total of about 500 institutions in the United States engaged in this new and important work.

The most important part of every business is to know what ought to be done.—Columella.

## FOR OFFENSIVE AND DEFENSIVE PURPOSES

### Council of Grain Exchanges of North America Organized.

Chicago, Nov. 16.—Preliminary organization of a central grain exchange, which includes nearly every important grain exchange in America—to be known as the Council of Grain Exchanges of North America—was completed at a delegate meeting held at the board of trade.

Representatives of nineteen exchanges took active part in bringing about the new council, which, according to the men who brought it into being, is to be used for offensive and defensive purposes.

The council, according to the speakers of the afternoon session and a dinner given at the Grand Pacific in the evening, may be used if the exchanges are ever again compelled to fight for their lives against adverse legislation.

It is the central organization advocated at a general conference held at the Princess theater some weeks ago and after ratification by the exchanges which sent delegates to the meeting will be the nucleus about which it is hoped to build a strong international exchange such as never before has existed anywhere.

### NO GROUND FOR THE FEAR

Aliens in Minnesota Will Not Be Denied Citizenship.

Washington, Nov. 16.—Officials of the division of naturalization say there is no ground for the fear, expressed in dispatches from St. Paul and Minneapolis, that thousands of aliens in Minnesota will be denied American citizenship because they failed to secure certificates of entry on landing in the United States.

"The prospective who entered this country in a regular manner need have no cause for alarm," said R. K. Campbell, chief of the division of naturalization.

"Those who come in clandestinely, however, can never be naturalized. Under the new law, passed in 1906, our officials present each alien on arrival with a certificate of landing. The loss of this certificate does not constitute a bar to naturalization."

"Judging from the dispatches from Minnesota the aliens in that state who have expressed concern came in regularly, were duly examined and a record of their arrival kept. Accordingly when they apply for citizenship they will have no trouble in securing certificates of entry in cases where such certificates have been lost or mislaid."

### MINES ARE CLOSING DOWN

But Ore Shipments by Water Will Continue for Some Time.

Two Harbors, Minn., Nov. 16.—Owing to cold weather and snow, all the mines on the Duluth and Iron Range railway except the Pioneer at Ely and the Bessemer at Virginia have stopped shipments until the surplus has been reduced to a minimum so as to prevent freezing and save the heavy expenses of steaming it out of the cars. More ore will be shipped before the season closes, but it will be loaded into the boats promptly.

### ARRANGEMENTS COMPLETED

Hawley Will Put His Railroads Into a Holding Company.

New York, Nov. 16.—Edwin Hawley has completed arrangements for the great holding company into which he will put all the railroads recently purchased by him. This will make a system of about 8,600 miles, reaching from St. Paul and the Missouri river in the Northwest to Kansas City, Chicago, Newport News and Galveston.

Detroit, Cincinnati, St. Louis and Louisville are other cities touched by the system. These railroads represent \$750,000,000 of capital, but more than half of it is in bonds, so the holding company will probably not have more than \$200,000,000 of capital stock.

B. F. Yoakum, chairman of the board of the Rock Island, will sever his connection with that company to take an important position with the Hawley company.

Announcement of this holding company, which will mark the birth of one of the greatest systems in the United States, may be made this week. Stocks of the Hawley railroads were active in Wall street in anticipation of this announcement.

### St. Paul Hunter Shot.

Ortonville, Minn., Nov. 16.—George H. O'Connell of St. Paul, twenty-two years of age, while hunting with two other companions twelve miles east of Ortonville, accidentally shot himself in the shoulder while putting his gun in the back of a buggy. The flesh and muscles were torn from his shoulder and arm.

### TUG FINALLY RESCUES CREW

But Steamer Hoyt Will Probably Be a Total Loss.

Duluth, Nov. 16.—After two days of fruitless endeavor to reach the steamer Hoyt, which was driven onto a sunken reef by the storm on Lake Superior off Otter Island, the tug Helm finally succeeded in reaching the wreck and took the crew aboard. The crew suffered terribly. A gale blew from the northeast, accompanied by a blinding snow storm, and waves dashed over the vessel, sometimes six feet above her decks. With the boat in utter darkness and pitching violently about in the breakers and with the billows washing over her the men were exposed to the greatest hardships.

According to Captain Ainsworth of the Hoyt the steamer will probably be a total loss. Captain Ainsworth remained but a short time in Bayfield after being taken from the wreck and returned to his vessel. He is seventy years old and this is his first season as master. The severe northeast wind has died down to a comparative calm.

### Fancy Cattle on Exhibition.

St. Paul, Nov. 16.—Fancy cattle, hogs and sheep and thoroughbred horses are to have their inning for four days at the third annual Northwestern live stock show, which opened in the horse exchange pavilion at the Union stock yards in South St. Paul.

### NORMAN PEASANTS.

Their Bread is Made in the Stables by the Men.

A farmer's wife in the north of France may do a good part of the heavy work about the farm, but she never thinks of making the bread. That is man's work, and it is carried on not in the kitchen, but in the stable.

The Norman peasant eats an astonishing quantity of bread. He has little else—except cider—for his breakfast and supper, and it is a very important part of his noonday meal as well.

And such queer looking bread as it is! The "loaves" are as round and as palely yellow as the full moon. They are often three feet in circumference and eight or ten inches thick. Seeing one of them for the first time, you would be likely to take it for a huge cheese.

Breadmaking being only a monthly occurrence in a Norman household, the operations must be on a scale of considerable magnitude if the family supply is to be sufficient to last for four weeks. The dough is always mixed in a certain inclosed space upon the floor of the barn.

At other times cats, dogs and poultry enjoy the freedom of this space, but when breadmaking time comes these are evicted and the floor is swept—let us hope very thoroughly.

There is no dough pan or trough. The flour and water are poured together upon the floor, and the farmer and his sons or hired laborers beat the mass into the proper consistency with heavy clubs widely flattened at the ends until they look something like roughly shaped snow shovels. Then a lump of leaven is added, and the mass is given ten or twelve hours to "rise."

Next it must be kneaded, a process which is accomplished with the feet. Shod in heavy sabots, or wooden shoes—not the everyday shoes, which are painted black, but made of unstained whitewood—the men leap into the midst of the dough. They jump about with agility; they stamp and kick the spongy stuff; they dance clumsy jigs in it, the stiffening dough clinging tenaciously to their shoes. It is the hardest of hard work, requiring endurance as well as strength, and before it is time to stop more than one of the men will be staggering to and fro in the pasty mass, thoroughly exhausted.

The dough is allowed to rise a second time, is again soundly beaten with the flattened clubs, is then put into great round pans and baked in the massive brick oven which stands in almost every Norman stable.

The bread which results is firm, close in texture and rather dingy in color, sweet, but dry, and decidedly palatable even to those who have seen it made.

As the month draws to a close the outer crust becomes so thick and hard that it can only be penetrated by a saw kept for that purpose. But this bony shell has its use, for it keeps the interior of the loaf fairly soft and fresh, sometimes for several months.—Youth's Companion.

### Wreckage Washed Ashore.

Grand Marais, Mich., Nov. 16.—Large quantities of wreckage, consisting of lumber, spars, skylights, windows and a cabin drifted ashore at Crisp Point, near here. No vessel in distress has been sighted by the life savers but a sharp watch is kept for any bodies that may come ashore.

## CAVALRY ON THE MOVE

They Usually Travel at a Walk While on a March.

### CAREFUL OF THEIR HORSES.

Reasons Why a Trot or a Gallop Might Prove Disastrous to the Animals. The Wagons and Supplies—Going into Camp at Night.

People unfamiliar with the marching of troops frequently have the impression that mounted troops usually travel at a trot or gallop while on a march. In the cavalry, however, the gait is usually a walk.

There are reasons why it is not advisable for cavalry to trot or gallop on its road marches. The trooper is required to carry his three weapons—rifle, pistol and saber—over a hundred rounds of ball ammunition, his blanket, shelter tent, canteen, extra horse shoes and sundry other articles, all of which add considerable weight to that of the trooper.

This weight is more or less concentrated at comparatively few points instead of being uniformly distributed over the horse's back, so that at a trot, in spite of all that may be done to avoid it, the concussion at certain points is considerable and if kept up tends to develop blisters and sores on the horse's back, which may increase until the animal is no longer fit to use.

As the supply department furnishes but one horse to each trooper, differing in this respect from the mounts of the cowboy, who has as many as he wants, a constant vigilance is required on the part of the captain while on a long march in order to keep his horses serviceable and prevent his troopers from becoming dismounted.

This he accomplishes in part by marching at a walk whenever the circumstances will admit it. By means of the walk he makes four miles an hour, says Captain William F. Flynn, U. S. A., in Forest and Stream, and as twenty-five miles is considered a fair day's march it is thus made in about seven hours, considering the necessary halts. The wagons carrying our supplies can go no faster than that, and there is rarely any advantage in reaching one's camping ground very much in advance of the wagons.

It is customary with individual tourists and campers upon making camp to turn their horses loose and either to watch them or else trust to luck in the matter of finding them again. We are not permitted to do this in the army. We always mean to provide grain for our animals on the march, and when we are unable to buy hay en route and thus have to rely upon grazing we put each horse out on a rope fastened to a picket pin driven in the ground.

On the march each mounted man carries his lariat and pin attached to his saddle and as soon as he unsaddles seeks a good grazing place for his horse and drives his pin in the ground. The horse thus gets a limited area upon which to graze. The pins are changed once or twice during the evening, and as the horse stays all night on his rope he gets a pretty fair chance at the grass, after all, and when we want him in the morning we can find him.

The horses having been unsaddled and disposed of, the men then put up their shelter tents. A shelter tent is a convenient little affair made in two halves to accommodate nicely two soldiers. Each soldier carries his half and his pole with him on his blanket roll attached to his saddle, so as soon as he unsaddles he can select his "bunkie" and put up his tent. The of-

ficers' tents are wall tents, carried in the wagons and cannot be put up till the wagons come in.

As soon as that takes place details of men put up the officers' tents, get wood and water for the cooks, and the latter build their fire and at once set about getting supper. Soldiers like to have their food well cooked; but, better still, they appear to like it promptly cooked, and that camp cook is always popular who yells "Come and get it!" just a little sooner than it is expected.

On the march we eat but two meals a day. After breakfast the cooks give each man a liberal sandwich of bacon and bread. This the man incloses in his meat can and when he gets hungry eats it. This constitutes his mid-day meal.

Supper over, a guard is posted to look out for the safety of the camp, and the other men usually collect fuel, build a rousing fire, gather round it and amuse themselves by singing, telling yarns and cracking jokes upon each other till bedtime, which comes pretty early with men on the march. The officers fill in the time in about the same manner.

On the march one always has to rise early. There are so many things to be done in order to get the cavalcade fairly on the road that early rising is essential. The guard rouses the cooks long before daylight, and by the time the horses are fed and brushed off the cook announces breakfast. After breakfast the tents are taken down, wagons packed, the horses saddled, and the column is once more on the march.

### KILLED BY THE HIRED MAN

South Dakota Woman Murdered in Her Home.

Sioux City, Ia., Nov. 16.—Mrs. Albert B. Nelson was murdered near Centerville, S. D., by a hired man whom her husband had brought home from town to husk corn.

Nelson was awakened by the man bending over his bed with a razor and grappled with him, afterwards running down stairs to get his gun, when he found his wife murdered.

The murderer in the meantime poured oil over the bed and his clothes and was burned to death. Neighbors put out the fire.

It seems to be a settled fact that  
our Indian summer has gone glimmer-  
ing at last.

The Anoka Herald editor has been  
appointed municipal judge at the  
city in which he lives. This will give  
the Herald a cinch on all scoops in  
the court line.

A pie famine in New York is again  
announced. We don't know exact-  
ly how the public will worry along  
without their daily pie but undoubt-  
edly some remedy will be discovered  
that will relieve the suffering.

New material for a democratic  
governor has been discovered in the  
person of C. G. Schulz, state super-  
intendent of public instruction. It  
is asserted that the democratic pow-  
ers that be have decided on Schulz  
to carry their banner to victory in  
Minnesota next year. The St. Cloud  
Journal-Press says one difficulty with  
this is that Schulz is a republican.

The friends of Frank A. Day, and  
the members of the newspaper frater-  
nity in the state especially, will ex-  
tend their sympathy in the death of  
his esteemed wife which occurred  
in St. Paul on the evening of the 14th  
inst. Mrs. Day was an educated lady  
always active in church and charita-  
ble work and her loss will be keenly  
felt by many outside of her imme-  
diate household.

The close friends of the late Gov.  
Johnson who are circulating a peti-  
tion to create a fund, the revenue  
from the investment of which will  
go to the support of Mrs. Johnson,  
have pledged in excess of \$18,000  
and it is expected that \$30,000 will  
be raised. At her death the princi-  
pal will furnish a John Albert John-  
son scholarship at the University of  
Minnesota, to be maintained in per-  
petuity.

J. A. O. Preus, who succeeds Har-  
vey Grimmer as executive clerk to  
Gov. Eberhard, is a young man well  
versed in politics and has a fund of  
information that will be a valuable  
asset in his new position. He has  
for some years been connected with  
Senator Nelson in an official capacity  
and has lent valuable assistance dur-  
ing the last two state campaigns.  
The governor seems to have made a  
wise selection.

Gil. Hartley is being boomed for  
congress by the newspapers on the  
range. The St. Cloud Journal-Press  
thinks the suggestion a good one and  
says: "He went to Duluth a few  
hundred thousand dollars in debt,  
and soon discovered that he never  
would get even with the world on a  
salary of \$3,000 a year as receiver  
of the Duluth land office. With him  
to decide is to act, and so he fired in  
a telegram to Grover Cleveland re-  
signing the office. He then went to  
boosting Duluth, and has had a hand  
in most of the big things doing since.  
If he were sent to congress Duluth  
would have a live man on deck all  
the time. And when it comes to in-  
dependence—Gill would have Aldrich,  
Cannon and Cummins all backed off  
the boards."

Mrs. Louie Hite, 428 Outlen, St.,  
Danville, Ill., writes, October 1st:  
"Foley's Kidney Pills started me on  
the road to health. I was treated by  
four doctors and took other kidney  
remedies but grew worse, and was  
unable to do my housework, and the  
doctor told me I only could live from  
two to six months. I am now so much  
better that I do all my own work,  
and I shall be very glad to tell every-  
one afflicted with kidney or bladder  
trouble the good results I received  
from taking Foley's Kidney Pills."

Work on the Cuyuna line is again  
going smoothly. The sink hole this  
side of Rice River has been filled, the  
Rice River and Dam Creek bridges  
are finished and the work of laying  
sidings at Lawler will be completed  
this week. The track crew will again  
start west Monday. There are about  
14 miles to lay before reaching Ait-  
kin and the track will probably reach  
here the first week in December. The  
Jacobson, Evans, Mann and Jamieson  
contractors are all working night  
crews and the work is pretty much  
that of finishing up, all along the line.

## NO DYSPEPSIA OR INDIGESTED FOOD

Heartburn, Gas, Headache and Other  
Misery Goes before You

Realize it

RELIEVES IN FIVE MINUTES

A Little Diapepsin Now Will Make  
You Feel Fine and End Stomach  
Trouble Forever

There would not be a case of indi-  
gestion here if the readers who are  
subject to Stomach trouble knew the  
tremendous anti-ferment and diges-  
tive virtue contained in Diapepsin.  
This harmless preparation will di-  
gest a heavy meal without the slight-  
est fuss or discomfort, and relieve the  
sourst, acid stomach in five minutes,  
besides overcoming all foul, nauseous  
odors from the breath.

Ask your pharmacist to show you  
the formula plainly printed on each  
50-cent case of Pape's Diapepsin,  
then you will readily understand why  
this promptly cures indigestion and  
removes such symptoms as heartburn,  
a feeling like a lump of lead in the  
stomach, belching of gas and eructa-  
tions of undigested food, water brash,  
nausea, headache, biliousness and  
many other bad symptoms; and be-  
sides, you will not need laxatives to  
keep your stomach, liver and intes-  
tines clean and fresh.

If your stomach is sour or full of  
gas or your food don't digest, and  
your meals don't seem to fit, why not  
get a 50-cent case from your druggist  
and make life worth living? Absolute  
relief from stomach trouble and per-  
fect digestion of anything you eat is  
sure to follow five minutes after, and,  
besides, one case is sufficient to cure  
a whole family of such trouble.

Surely, a harmless, inexpensive  
preparation like Diapepsin, which will  
always, either at daytime or during  
night, relieve your stomach misery  
and digest your meals, is about as  
handy and valuable a thing as you  
could have in the house.

### ASKS A DIVORCE

Anna K. Kreigh Wants Divorce  
From Luther H. Kreigh on  
Charge of Desertion

A complaint has been filed by Forbes and Peregrine, of Pine River, in behalf of Anna K. Kreigh asking a divorce from Luther H. Kreigh. The complaint recites that the couple were married in Brainerd, November 20, 1900, and that three children have been born to them, Benjamin, aged 8, Agnes, aged 7, and Susie, aged 4; that the husband and father deserted his family March 3d, 1905, and since that time has not contributed to the support of the wife or the two younger children, nor does the wife know of his whereabouts. She asks absolute divorce and the custody of all three of the children, the eldest of whom is living with his in the state of Kansas.

**Catarrh Cannot be Cured**  
with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it, you must take internal remedies. Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

## STRAY BULLET KILLED DOG

Brainerd Hunters See Dog Killed at  
Their Feet and Give up  
Hunting Trip

### THOUGHT THEIR TURN COMING

Other Brainerdites Have Been Lucky  
and no Casualties are Re-  
ported so Far

Two Brainerd hunters, one of whom was Frank O'Neil, and another man whose name could not be learned, ventured into the woods deer hunting. They had not been in the woods over 15 minutes and were standing talking about which way they should go when a stray bullet killed a dog which was standing between them. They quit right there and pulled out for town.

Brainerd hunters so far have been lucky and no reports have been received of any injuries to local people while in the woods, though hunters from other communities have fallen victims to bullets. Patrick McNulty of Wright, 60 miles east of here, was found dead in the woods in southwestern St. Louis county a few days ago, supposedly the victim of deer hunters.

### RECEPTION FOR FORMER PASTOR

Rev. E. K. Copper Will be Honored  
Friday Evening at Tuttle  
Memorial Church

Rev. E. K. Copper, the appointed district superintendent of the Duluth district of the Methodist Episcopal churches, will be given a reception Friday evening at the Merritt Memorial M. E. church, Forty-sixth avenue west and Halifax street. It will be under the auspices of the official board of the church.

Mr. Copper was former pastor of the Merritt Memorial M. E. church, having severed his connection with the local church about five years ago. He has many old friends in the congregation, who, it is expected, will be present Friday evening to extend the welcome to him.

Th reception will be of informal nature and will be given in the church parlors. There will be short talks given by several of the Methodist Episcopal ministers of the city and others.—Duluth Herald.

### IT'S YOUR KIDNEYS

Don't Mistake the Cause of Your  
Troubles. A Brainerd Citizen Shows How to Cure Them

Many people never suspect their kidneys. If suffering from a lame, weak or aching back they think that it is only muscular weakness; when urinary trouble sets in they think it will soon correct itself. And so it is with all the other symptoms of kidney disorders. That is just where the danger lies. You must cure these troubles or they may lead to diabetes cures all ill which are caused by weak or Bright's disease. The best remedy to use is Doan's Kidney Pills. It or diseased kidneys. Brainerd people testify to permanent cures.

Mrs. L. Peterson, Brainerd, Minn., says: "I have used Doan's Kidney Pills and I emphatically declare that this remedy is a most reliable one. I suffered for a long time from pains through my loins and a constant, dull ache in the small of my back. As there were other symptoms of disordered kidneys, I decided to try Doan's Kidney Pills and procured a supply from H. P. Dunn's drug store. After I began the use of this remedy I felt better in a few days and my condition gradually improved until all symptoms of kidney trouble had disappeared. I am a firm believer in the merits of Doan's Kidney Pills and take pleasure in recommending them to other sufferers."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

### Might Help Some.

In Shakespearean days they used to label the scenery "They hung out placard's stating that "This is a Wood" or "This is a Castle." We don't need to do that now.

Still, we might use the scheme to advantage. It would help sometimes to see an alleged Thespian bearing the legend, "This is an Actor."—Louisville Courier-Journal.

### Easy.
